

## 113 First Annual Competition

**Location:** Kyser Quad

**Time:** 1:30-2:30pm, prize ceremony at 2:30pm.

*Hosts: Anna & Milton.*

*Featured Guests: T. Pham & F. Huang, to be introduced.*

### The Rules of Engagement

Here's what you need to know:

- \* **The Quest:** Solve as many problems as you can.
- \* **Choices, Choices:** To move forward, you can either solve a problem or skip it. Each team gets two free skips; after that, each skip costs you 1 point. Choose wisely!
- \* **No Tyler:** (Tyler is one of the top students) Each submit must be written by a different person.
- \* **Judgment Day:** To submit a problem, contact one of the wise judges who will evaluate your valor and skill.
- \* **Double or Nothing:** You get two free attempts for each problem. After that, each additional attempt will deduct 1 point from the problem's worth. If a problem's worth becomes zero, it's as if you've skipped it.
- \* **No Turning Back:** If you skip a problem, you forfeit the right to solve it later. Make your decisions carefully!
- \* **Risk and Reward:** Each problem has its own value, so strategize to maximize your points.
- \* **Phone-A-Feathered-Friend:** Our esteemed guests are like wise Blue Jays perched and ready to assist! You can chirp for help on up to 2 problems<sup>1</sup>

### Pro-Tips

- Stay hydrated, **bring water**, hat, sunglass and a **water gun** if you have one.
- Take risks, add me on instagram/facebook/whatsapp.
- Have Terence's/Spivak's opened by your side and use the cmd F.

---

<sup>1</sup>but remember, they only guide your flight and not give you the exact coordinates.
