Dear Members of the Appointment Committee,

I am Chen-wei (Milton) Lin, a Ph.D. candidate in pure mathematics at Johns Hopkins University, focusing on arithmetic geometry, geometric Langlands, non-Archimedean geometry, and homotopy theory. Under the supervision of Professor David Gepner, I expect to complete my degree in May 2025. I am writing to apply for the ARG postdoctoral position. I am eager to engage with the department and collaborate with its faculty, especially Professors Dimitri Wyss, Donna Testerman and Maryna Viazovska, whose work I greatly admire and from whom I hope to gain valuable insights.

My cover letter, curriculum vitae and research statement. In addition, I have arranged for four recommendation letters to be sent: these will be research letters from David Gepner (gepner@jhu.edu), Yiannis Sakellaridis (sakellar@jhu.edu), David Hansen (dhansen@nus.edu.sg) and Xinwen Zhu (zhuxw@stanford.edu) and one teaching letter from Emily Braley (ebraley1@jhu.edu).

Please let me know if there is anything else I can provide. Thank you in advance for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Chen-wei' in a cursive, flowing style.

Chen-wei (Milton) Lin
