Dear Members of the Appointment Committee,

I am Chen-wei (Milton) Lin, a Ph.D. candidate in pure mathematics at Johns Hopkins University, focusing on arithmetic geometry, geometric Langlands, and homotopy theory. Under the supervision of Professor David Gepner, I expect to complete my degree in May 2025. I am writing to apply for the Dirichlet Postdoctoral Fellowship at the Berlin Mathematical School. I am eager to engage with the department and collaborate with its faculty. I have listed Professors Christian Haase, Michael Joswig, and Bruno Klingler as professors who I wish to work with.

My cover letter, curriculum vitae, research statement, and list of publications are enclosed with this application. In addition, I have arranged for three recommendation letter writers: These will be research letters from David Gepner (gepner@jhu.edu), Yiannis Sakellaridis (sakellar@jhu.edu), and Xinwen Zhu (zhuxw@stanford.edu).

Please let me know if there is anything else I can provide. Thank you in advance for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. W. Lin', with a stylized flourish at the end.

Chen-wei (Milton) Lin
