Dear Members of the Appointment Committee,

I am Chen-wei (Milton) Lin, a Ph.D. candidate in pure mathematics at Johns Hopkins University, focusing on arithmetic geometry, geometric Langlands, and homotopy theory. Under the supervision of Professor David Gepner, I expect to complete my degree in May 2025. I am writing to apply for the L.E. Dickson Instructor. I am eager to engage with the department and collaborate with its faculty, particularly Professors Alexander Beilinson, Frank Calegari, Vladimir Drinfeld, Matthew Emerton, Victor Ginzburg, Akhil Mathew, B  o Ch  u Ng  o, and Tomer Schlank, whose work has greatly inspired me during graduate school and from whom I hope to gain valuable insights.

My cover letter, curriculum vitae, research statement, teaching statement, and list of publications are enclosed with this application. In addition, I have arranged for four recommendation letters to be sent: These will be research letters from David Gepner (gepner@jhu.edu), Yiannis Sakellaridis (sakellar@jhu.edu), and Xinwen Zhu (zhuxw@stanford.edu) and one teaching letter from Emily Braley (ebraley1@jhu.edu).

Please let me know if there is anything else I can provide. Thank you in advance for your consideration.

Sincerely,

A handwritten signature in black ink, consisting of a stylized cursive 'C' followed by 'Wei'.

Chen-wei (Milton) Lin
