Department of Mathematics Rämistrasse 101, 8092 Zürich, Switzerland

Dear Members of the Appointment Committee,

I am Chen-wei (Milton) Lin, a Ph.D. candidate in pure mathematics at Johns Hopkins University, focusing on arithmetic geometry, geometric Langlands, and homotopy theory. Under the supervision of Professor David Gepner, I expect to complete my degree in May 2025. I am writing to apply for the Hermann-Weyl- Instructorship (postdoctoral position). I am eager to engage with the department and collaborate with faculty members. I am particularly inspired by the work of Professors David Loeffler and Sarah Zerbes, expertise I greatly admire and from whom I believe I can gain significant knowledge.

Enclosed with this application are my cover letter, curriculum vitae, research statement, teaching statement, and a list of publications. In addition, I have arranged for four recommendation letters to be sent: These will be research letters from David Gepner (gepner@jhu.edu), Yiannis Sakellaridis (sakellar@jhu.edu), Xinwen Zhu (zhuxw@stanford.edu), and one teaching letter from Emily Braley (ebraley1@jhu.edu).

Please let me know if there is anything else I can provide. Thank you in advance for your consideration.

Sincerely,

Chen-wei (Milton) Lin
